

POWER AND PERFORMANCE. ANYWHERE.

# TGP60

GROUND  
POWER UNIT

**C**  
CORRAVIATION

## CAN YOUR GPU DO THIS?

### FEATURES

- Highway capable trailer design allows for easy transportation and accessibility at airports without ground power capabilities
- Folding stowable forward tricycle gear to allow for towing with either a highway capable vehicle or a standard tug application.
- Tracking and monitoring via Taylor Telematics, an integrated system allowing owners to view usage, view fuel levels, monitor service intervals, and power off the machine without ever touching the unit
- Automatic shut down capabilities in the event of engine overheat, low fuel, low oil, low pressure, or an exceedance in power output
- A rugged design and ergonomic housing allows for both ease of use and the ability to sustain general wear and tear associated with travel
- Locked storage spaces have ample room to house support tools, parts, and cables while ensuring the utmost in security
- Ample lighting contained both under the chassis for ground coverage and amber safety running lights to easily identify the unit in a ramp-side environment
- Each unit comes with a 12 month/3,000 hour manufacturer's warranty

# THE NAMES BEHIND THE PRODUCT

Taylor Power Systems is a part of The Taylor Group of Companies established by W. A. Taylor Jr. in 1986 to distribute industrial engines and manufacture generator sets. Taylor Machine Works has been designing and building high quality industrial lift equipment for more than 90 years. Taylor Power Systems provides that same quality and integrity in designing and building dependable prime and standby power generation resources in a variety of challenging and critical environments.

For over 30 years, Taylor Power Systems has established a solid reputation for dependability, innovation, and service as a premier, made-in-Mississippi, generator manufacturer. We design, engineer, manufacture, and service generators for the oil and gas, industrial, commercial, business, health care, telecommunications, municipalities, rental, transportation, agricultural, and any standby or prime power needs.

Located in Clinton, Mississippi, Taylor Power Systems main office and production facility includes more than 300,000 sq. ft. of office, training and production manufacturing space, giving Taylor Power the technological resources to produce the finest power-generating resources for a variety of needs.

Founded in 2019, Corr Aviation is a leading provider in aviation maintenance, aircraft detailing, and ground handling services in the United States. Operating under a FAA Part 145 designation, Corr Aviation's capabilities cover a full array of services to assist any aircraft operator for technical and aesthetic services. A fleet of AOG recovery vehicles, mobile power sources, detailing vehicles, and a Cessna Caravan EX make Corr Aviation able to service its customers at both large and small airports to ensure that an aircraft is returned to service and has been effectively cleaned to preserve the aircraft quality. Based in Oxford, MS, the Corr Aviation team can dispatch regionally to support your fleet with specialization in Embraer, Citation, and Challenger product lines.

With over 100 years of technical experience in private aviation, the team at Corr Aviation understands first-hand the on-the-job requirements of performing the tasks with precision and professionalism, both in the hangar and on the road. As the Exclusive Distributor of all Taylor Power System GPUs, the Corr Aviation team will keep a power supply mobile, ready, and able to return your aircraft to service sooner than any other product on the market.

**Corr Aviation Is The Exclusive Distributor Of All Taylor Power Systems GPUs**

## PRODUCT SPECIFICATIONS

15' Length - 6.5' Width - 5' Height

Deutz Turbo Diesel Engine

- Tier 4 Compliant
- 28 Hour Run Time\*
- 28.5 VDC Output

State-Of-The-Art DC Voltage Regulator

For Modern-Day Airframes

3000 Starting Amps Peak\*

## PROGRAM OPTIONS

### PURCHASE

- In-House Financing Options  
Are Available

### LEASE

- 60-Month Term Period

### RENTAL

- Annual, Monthly, Weekly Rental Rates
- Event/Fleet Rates Available
- Lease To Own

**Starting at \$65,000**
